INVESTMENT OBJECTIVE

The **Anchor BCI Global Equity Feeder Fund's** objective is to provide capital growth over the long term. This is achieved through direct investment into the FSCA approved Anchor Global Equity Fund, domiciled in Ireland.

INVESTMENT PHILOSOPHY

We aim to achieve this objective by investing in a concentrated portfolio of high-quality, growing companies that are attractively valued. These companies are selected from both developed and emerging markets (EMs).

FUND PERFORMANCE SINCE INCEPTION

Growth of R100 investment (cumulative).

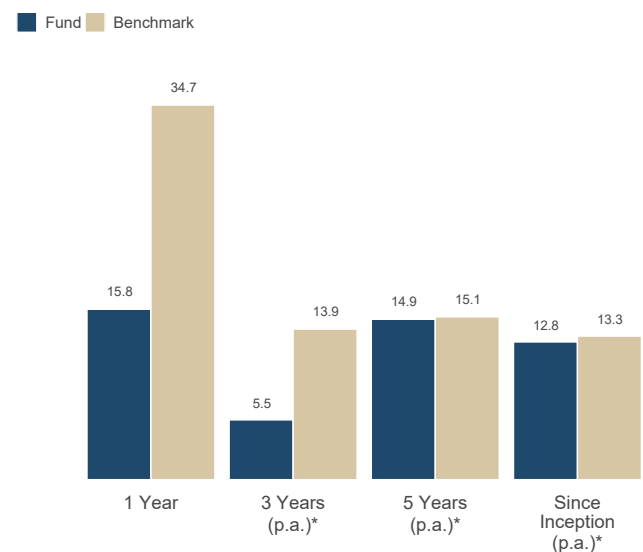

Investment performance is for illustrative purposes only and calculated by taking actual initial fees and ongoing fees into account for the amount shown with income reinvested on reinvestment date.

RISK PROFILE: HIGH

- This portfolio has a higher exposure to equities than any other risk profiled portfolio and therefore tend to carry higher volatility due to high exposure to equity markets.
- Expected potential long-term returns are high, but the risk of potential capital losses is high as well, especially over shorter periods.
- Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks.
- Therefore, it is suitable for long term investment horizons.

FUND PERFORMANCE AT 30 JUN 2023 (%)

*Annualised return is the weighted average compound growth rate over the period measured.

ASSET & SECTOR ALLOCATION AT 30 JUN 2023 (%)

FAIS CONFLICT OF INTEREST DISCLOSURE

Please note that your financial advisor may be a related party to the co-naming partner and/or BCI. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to BCI, the trustees, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instance portfolios invest in other portfolios which forms part of the BCI Schemes. These investments will be detailed in this document, as applicable. Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za. BCI calculates the EAC as per the ASISA standard for a period of 3 years up until the most recent TER reporting period.

DISCLAIMER

Boutique Collective Investments (RF) (Pty) Ltd ("BCI") is a registered Manager of the Boutique Collective Investments Scheme, approved in terms of the Collective Investments Schemes Control Act, No45 of 2002 and is a full member of the Association for Savings and Investment SA. Collective Investment Schemes in securities are generally medium to long term investments. The value of participatory interests may go up or down and past performance is not necessarily an indication of future performance. The Manager does not guarantee the capital or the return of a portfolio. Collective Investments are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees, charges and maximum commissions is available on request. BCI reserves the right to close the portfolio to new investors and reopen certain portfolios from time to time in order to manage them more efficiently. Performance figures quoted for the portfolio are from Morningstar, as at the date of this document for a lump sum investment, using NAV-NAV with income reinvested and do not take any upfront manager's charge into account. Income distributions are declared on the ex-dividend date. Actual investment performance will differ based on the initial fees charge applicable, the actual investment date, the date of reinvestment and dividend withholding tax. Investments in foreign securities may include additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Should the portfolio invest into another Anchor BCI co-named portfolio, the investing fund will be reimbursed for any net investment management fees incurred by the investment so that there is no additional fee payable to Anchor.

Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. A feeder fund is a portfolio that invests in a single portfolio of collective investment schemes, which levies its own charges and which could result in a higher fee structure for the feeder fund. Boutique Collective Investments (RF) Pty Ltd retains full legal responsibility for the third party named portfolio. Although reasonable steps have been taken to ensure the validity and accuracy of the information in this document, BCI does not accept any responsibility for any claim, damages, loss or expense, however it arises, out of or in connection with the information in this document, whether by a client, investor or intermediary. This document should not be seen as an offer to purchase any specific product and is not to be construed as advice or guidance in any form whatsoever. Investors are encouraged to obtain independent professional investment and taxation advice before investing with or in any of BCI/the Manager's products. Full details and basis of the award is available from the manager. Access the BCI Privacy Policy and the BCI Terms and Conditions on the BCI website (www.bcis.co.za).

FUND MANAGER COMMENTARY AT 30 JUN 2023

Generative artificial intelligence (AI) is dominating investors' collective consciousness. As with the internet in the late 1990s, it will take time for AI to fully impact corporate earnings and society at large. It is still far too early to quantify those effects with any accuracy. Regardless, understanding market dynamics in similar situations should be useful in navigating the current environment. With that in mind, two primary forces propel asset prices and markets: momentum and mean reversion. Consistent with Newton's First Law, momentum is the propensity for prices to keep moving in the same direction. Inevitably, the rubber band stretches too far and mean reversion pulls prices back to equilibrium. In our view, most investing strategies seek to gain an edge by exploiting one or both forces. Whenever a subject is highly topical (like AI at present) any investment edge is likely to be momentum-based and shorter-term in nature (acknowledging that 'shorter-term' can be longer than you think!). Examples from the past few years include 'COVID winners', 'The re-opening trade', the 'Trump trade' and the 'European renaissance'; in each case, momentum inevitably gave way to mean reversion. Unfortunately, the fund has not held Nvidia, the company at the forefront of AI and a stellar performer YTD. Nevertheless, we have trimmed other holdings with tangential exposure to AI that have benefitted from the AI hype cycle. Conversely, the selloff in certain 'non-AI' shares (like **Heineken**) has provided us with an opportunity to acquire outstanding franchises at compelling valuations.

FEE DETAILS

	Class A
Initial fees (BCI) (incl. VAT)	0%
Annual Service Fee (incl VAT)	0.29%
Underlying Investment fees (levied in the Anchor Global Equity Fund)	1.25%
Performance Fee	None
TER and Transaction Cost (incl VAT)	
Basic	Mar 23: 1.71% (PY): 1.76%
Portfolio Transaction Cost	Mar 23: 0.00% (PY): 0.00%
Total Investment Charge	Mar 23: 1.71% (PY): 1.76%

A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. The TIC should not be considered in isolation as returns may be impacted by many other factors including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The TER and Transaction Cost calculations are based upon the portfolio's direct costs for the financial year ended 30 June 2022, whilst the underlying portfolios ratio and cost calculations are based upon their most recent published figures, being 31 March 2023.
